

Faribault State Hospital
Faribault, Minnesota 59021

To : Erv Picka, Gil Thompson, Bill Bell, Dean Nelson, Social Service Staff

From: Eric Errickson, Inst. Prog. Coord.

Subj.: Minutes of February 20, 1969

A meeting was held Thursday, February 20 at the Faribault State Hospital to discuss the possibility of transporting a selected group of residents from Faribault State Hospital to Outreach for work adjustment training. The group's consensus was that Faribault State Hospital had a substantial number of residents who could benefit from this service and Outreach would be able to provide this service. The following plan of action was then established to begin this program on a pilot basis:

- 1) Faribault State Hospital social workers will refer appropriate clients for this service to D.V.R. This will be completed by February 27 when Mr. Streeter will next visit the hospital.
- 2) After eligibility is established there will then be a screening meeting involving Faribault State Hospital staff, D.V.R., Outreach staff, and representatives from Hennepin County Welfare Department.
- 3) Faribault State Hospital residents acceptable to all parties will then begin a four week evaluation to determine feasibility for work adjustment training*
- 4) During the third week of the training a joint staffing will be held to determine further plans for these residents involved.
