Greetings Dearest

Hello My Beloved and Only One in God,

Thank you for your mail that I got now and it contents which is clearly understood by me very well. I thank you so much for explaining to me to know about you very well, it gives me full confidence and trust in you that you are a God sent to help me out, you are my only hope, I will never lie to you or do you wrong. Please I will like you to know that I will be coming to your country after the consignment had been deliver to you and I will be happy to study at University over there in your country. Bear in mind that am for real and not into any game or whatever. I contacted you with a clear intention and good faith needing your help to retrieve my only inheritance fund in the company and save my life in trouble and danger.

My God sent [name redacted], the security company will deliver the consignment to you over there in your country and I will send you the access combination to the consignment so that you will have it with you, as soon as you receive the consignment you will open it and take out some money from there to send to me, in order for me to get my visa together with flight ticket and other necessary documents that would be required by the immigration for coming over to your country, when I come over you will help me to negotiate a very good investment which I can invest the money into.

Dearest, Please all I want from you is to lead me to the right channel in life as you know I am an orphan I don't have any relative over there in your country that is why I need your help, also I want your support to make sure that the security company release and deliver this consignment to you as it is the only hope I have now to move on in life, I do not know how much the trunk box weigh, but all I know and sure of is that the money US$8.4 Million dollars which I told you about is inside the trunk box, and I am the only one with access key to the consignment which my Daddy gave to me before his death.

The security company told me that the safety of the consignment is intact and that no one will be allowed to access the box until it is delivered to overseas country, because it was the agreement they had with my late father when he deposited the consignment to there company and for this reason the consignment had what they called diplomatic immunity, which means that no immigration officer, police or any security agent at any checking point, border or any airport will have the right to open the consignment until it is delivered to you, He said that no one will be allow to access the consignment until it is delivered to overseas.

I think that is the reason why my late father warned me never to let the security company to have idea of what is inside the consignment, I have the pictures of the trunk box before it was deposited to the security company, if you wish I can send it to you, please if there is any more thing you will like to know about this project let me know so that I can explain. I have trusted you with my future and my only hope of surviving with hope that you will not cheat me.

Please, promise me that you will keep this project for both of us as I don’t want any third party to know about the money in the consignment because some people are full of wicked, please do not discuss this issue with anybody or your relatives lets keep it to our self. I will like you to give me the answers to these questions it will help me introduce you to the Security Company as my present guardian whom the consignment will deliver to:
I think that is the reason why my late father warned me never to let the security company to have idea of what is inside the consignment, I have the pictures of the trunk box before it was deposited to the security company, if you wish I can send it to you, please if there is any more thing you will like to know about this project let me know so that I can explain. I have trusted you with my future and my only hope of surviving with hope that you will not cheat me.

Please, promise me that you will keep this project for both of us as I don’t want any third party to know about the money in the consignment because some people are full of wicked, please do not discuss this issue with anybody or your relatives lets keep it to our self. I will like you to give me the answers to these questions it will help me introduce you to the Security Company as my present guardian whom the consignment will deliver to:

1. Your Marital status and Age.

2. Your ID Document.

3. If you are ready to keep the project as top secret as I do not want it to be jeopardize.

4. Your credibility and reliability as to avoid betrayal from you or seating on my share when the consignment had delivered to your care,

Also your immediate response shall be most appreciated as the urgency of the issue due to my present situation as I already explained, my Uncle is after my life to make sure no one question him about my late father’s death and properties. We don't have enough time again to execute this project and also you are to advice me if I should give you the contact information of the security company for you to negotiate with them. Bear in mind that the security company does not know the real content of the trunk box because my late father deposited the box as family valuables.

I want your promise to help me and also stand by me when I get over there. Note that our relationship can not only be built on money but it has got a lot to do with trust and love for People, how can we build this trust? Should we be bonded by a contract bond which will be legally signed and sealed in the law court here to avoid cheats from the both of us before we proceed? I need your opinion on this, but I feel I can trust you without going into any contract bond.

I will attach my International Passport, Birth Certificate, Deposit Certificate, Deposit Agreement and my photo in my next message for you to see and be sure of everything am telling you about this project. You are in my heart and I believe you are the only one I will show this pictures. I do not like to remember my late father because each time I remember him, I will do nothing but to cry for the whole day, whenever I remember how my late father loved me and the name he used to call me, I start crying!!!!!.
Life has not been easy ever since I lost my father but I have been managing my self with the little money that is left with me after my father died finding a way to retrieve this consignment as all my hope of surviving is in the consignment. There are so many things I am lacking here as a young girl due to lack of money and the cost of living here in West Africa, when my father was alive things are not like this but I know that by the grace of God thing will be fine again.

I want you to give me all your heart in helping me because you are the only person I need to transact this fund with also please you are advice not to contact any other person in this matter or respond to any letter that is not from me, because I don’t want any third party on this issue. Make sure you keep this matter secret do not let any other person to know about the money in the security company until the final delivery of the consignment to your country.

Remember to send me your information details, so that we shall proceed immediately because the security company director said we are running short of time to prevent the government from taking possession of my consignment if I do not make a claim to it immediately. On hearing from you I will give you the contact information of the security company and all the back-up documents and my id's for you to contact them as my present guardian. Bye for now and remain in trust while I await your reply soon.

Thanks and God bless and reward you for your kind help to me!!

With much love, respect and trust
Your's Faithfully
Miss. Fiona Nadero.
